

For more than 30 years, consistently high quality has been the hallmark of Custom Label's success.

In 2009 Custom Label embarked on ISO certification. ISO 9001 is the internationally recognized standard for the quality management of business. This certification showcases our commitment to quality, our customers, and our devotion to continuous improvement. Our quality systems are documented, and evolve as our systems improve. Our employees are continually trained on our most current procedures and work instructions. These systems are verified annually through external audits, and the renewal of our ISO 9001:2015 Certification.

What does ISO 9001:2015 mean to our customers? We document our procedures, train our employees, and verify that the procedures are followed. For our customers this obsession leads to higher label quality, lower pricing, consistent lead times, and a reliable supplier.
